## **Information for Immediate Release**

### **Primos Short Bi Pod Trigger Stick**

With just one hand and the pull of a trigger, you can adjust the Primos Trigger Stick to your desired height. The Trigger Stick is the fastest way to get on target and stay steady while taking a shot. The Short Bi Pod Trigger Stick is a lightweight height-adjustable gun rest and optical gear mount, perfect for sitting or kneeling and is ideal for turkey or predator hunting while sitting on the ground. It comes equipped with a detachable V yoke. The Trigger Stick fits ¼"-20 & 3/8"-16 threaded fixtures for securing optical gear. It is perfect for cameras, spotting scopes, binoculars, laser range finders and almost any other mono, bi and tri pod mountable device.
